**Portfolio:** [abdelaziz-elhathoute.netlify.app](https://abdelaziz-elhathoute.netlify.app)

## LANGUAGES

- **Arabic:** native
- **French:** intermediate
- **English:** intermediate

## SOFT SKILLS

Teamwork   Communication  
Problem Solving  
Project Management  
Continuous Learning   Adaptability

## SKILLS

PHP   Symfony   Laravel  
JavaScript   Vue.js   HTML5  
CSS3   TailwindCSS   MySQL  
PostgreSQL

## TOOLS

Git   Docker   Composer  
REST API   Postman

## METHODOLOGIES

MVC, Clean Code, Hexagonal Architecture,  
Scrum, Agile Methods

## PROFESSIONAL PROFILE

Full-Stack **PHP/Symfony/Laravel** and **Vue.js** developer combining technical expertise with **best practices** to build **high-performance**, **secure**, and **maintainable** web applications from technical analysis to production. Strong focus on **SOLID** principles, **automated testing (PHPUnit)**, and modular architectures (**hexagonal**).

## PROFESSIONAL EXPERIENCE

**Full-Stack Developer – Decq Print • Casablanca** 05/2024 – Present

- Built an online printing solution from order to delivery, with a SaaS in progress for centralized management.
- Back-end: APIs (machine park, production orchestration, capacity), AWS S3 integration, PDF documents.
- Front-end: CRUD interfaces, visual planning, dashboards, and orders module.
- Stack: Symfony, Vue.js, Docker, AWS, REST API, hexagonal architecture.

**Full-Stack Developer – Wobz Technologies • Casablanca** 06/2023 – 05/2024

- Developed features for reusable container customization.
- Integrations: payments (SEPA via GoCardless), Magento 2 (orders, stocks), AWS S3.
- Workflow design: orders, synchronization, automated documents.
- Stack: Symfony, Vue.js, Docker, AWS, RabbitMQ, GoCardless, REST API.

**Web Developer – ADMDI • Agadir** 05/2023 – 06/2023

- Web development and digital solutions (clients/projects modules, invoicing, roles).
- Stack: PHP, JavaScript, MySQL, Bootstrap, PDF generation (DOMPDF).

**Full Stack Developer – Freelance** 02/2022 – 05/2023

- Built management apps (inventory, booking, production).
- Implemented REST APIs with Symfony/Laravel; Vue.js/TailwindCSS front-end integration.
- Performance optimization and code maintenance; Clean Code and SOLID principles.

## EDUCATION

- **2022 – 2023** · Simplon/YouCode Certificate (Youssoufia) – YouCode, IT School. Intensive web development program (Learning By Doing, 800h of hands-on coding). Educational partnership OCP-Simplon.
- **2020 – 2021** · Bachelor in Distributed Information Systems – Cadi Ayyad University (Marrakech). Focus on distributed architectures (J2EE), advanced web programming, and distributed systems.
- **2018 – 2020** · DEUST MIPC – Cadi Ayyad University (Marrakech). Multidisciplinary core: Computer Science & Mathematics, Fundamental Physics & Chemistry; focus on physico-chemical phenomena and mathematical tools.
- **2011 – 2017** · Baccalaureate in Physical Sciences – High School (Taroudant). Physical Sciences and Chemistry track.

---

## PROJECTS

- **React Portfolio 2025** — React 18, Vite, Tailwind, Framer Motion, i18next, SEO, dark/light.
- **Nobty | MyPlace (2024)** — Vue.js SaaS front for hairdresser/barber appointment booking. *(In development)*
- **DarTabkh (2024)** — Vue.js SaaS front for food delivery/restaurant. *(In development)*
- **Holt Sales Forecasting (2024)** — Streamlit sales forecasting app (Holt). Stack: Python, Pandas, NumPy.
- **Industrial Production Management (Decq Print, 2024–Present)** — APIs (machine park, orchestration), logistics platform (documents, S3), dashboards and planning. Stack: Symfony/Vue.js, REST, Twig, Docker, AWS, DOMPDPF.
- **E-commerce & Financial Management (Wobz, 2023–2024)** — Magento 2 integration (orders, stock), orders workflow/S3, SEPA payments (GoCardless), automated documents. Stack: Symfony/Vue.js, Docker, AWS, RabbitMQ.
- **Engineering Office Management (ADMDI, 05/2023)** — Clients/projects, user roles, multi-currency invoicing. Stack: PHP, MySQL, Bootstrap, JS, DOMPDPF.
- **YouTrain™ Booking (YOUCODE, 11/2022)** — Railway booking, network management, search engine, ticketing. Stack: Laravel, MySQL, Bootstrap.
